# Soar into Summer Reading! Cornwall Elementary's 2023 Summer Reading Challenge 

As summer vacation is about to begin, please consider the importance of including reading in your summer plans.

Why is summer reading important? Research clearly demonstrates that on average, children experience up to 4 weeks of learning loss over the summer! Children who struggle with reading can lose up to 12 weeks of reading progress. How can we prevent this loss? Read every day! The more students read, the better their comprehension, vocabulary, and fluency.

What is your goal? To participate, your child needs to read (or be read to) for 1050 minutes between June 1 and August 31. That is just 15 minutes a day for 70 days! Every time your child completes 15 minutes of reading, he/she should color one block on the attached reading calendar.* Return the calendar with a parent's signature to your child's teacher by Tuesday, September 5th. Students entering $6^{\text {th }}$ grade in August may return their calendars to their middle school teachers.

Make a plan to reach your goal! Dedicate some time and space for reading each day. Summertime reading can be fun and relaxing. It is the perfect time to venture outside with a good book. Is your child wondering what to read this summer? You will find information about recommended reading lists for elementary students on the next page. It will be much easier to reach the goal if your child has a plan for what, when, and where to read. All students who reach the summer reading goal of 1050 minutes will be honored with a reward and a chance to win one of $\mathbf{7}$ Book Fair gift certificates. One winner is guaranteed in each grade.

Double your reading investment! If you plan to participate in a summer reading program through the Library System of Lebanon County, your child's reading counts toward both programs. Look for information about that program on the next page.

# Summer Reading Resources 

## Library System of Lebanon County

The 2022 Summer Learning Program, Oceans of Possibilities, begins June 2023 with Lebanon County Libraries!

This year the Summer Learning Program will be a mixture of in-person and online programming. Some libraries will have programs in-person, outside if possible. If the weather forces programs inside, space may be limited due to social distancing requirements. Be sure to check with your local library to find out if programs are in-person or online! Masks must be worn by children and adults at all in-person programs.

## Visit the Library System of Lebanon County website for more information. https://lebanon.Iclibs.org/kids-teens/summer-reading/

Each year the Association for Library Services to Children (ALSC) provides updated lists with summer reading recommendations for children from birth through $8^{\text {th }}$ grade. Visit their website to find great books to help you meet your summer reading goal.

The Children's Choices Reading List from the International Literacy Association (ILA) offers recommendations for the latest and greatest new books. What makes this list unique? All the books are chosen by children! Check out this list to see what books other students are excited to read.
